

I am asking you to reject the National Association of Broadcasters petition 04-160. While traveling this great nation of ours, it is wonderful to be able to tune on the XM Radio the traffic and weather reports. It is twenty four hours a day and I do not have to hunt for a local station that might have traffic and weather only during the "rush hours". It is also a safety issue. I pay for the XM service just like people pay for cable tv or satellite tv service, and I do not think it is any business of the NAB what XM puts on their channels. Thanks for reading this.
